

SURYA PRAKASH SUNITHA PRAKASH

Coventry, UK (open to UK-wide relocation) | +44 7584 300174 | suryasp.5159@gmail.com | www.linkedin.com/in/surya-prakash-s-p25
Available for full-time work from September 2026 via the UK Graduate Route — no employer sponsorship required

PROFESSIONAL SUMMARY

MSc Electronic Engineering candidate (University of Surrey, graduating September 2026) seeking graduate and junior Network Engineer and NOC roles across the UK. Early-career experience configuring VLANs, VPNs, and FortiGate firewalls and running Splunk SIEM monitoring across enterprise client environments. Strong foundation in TCP/IP, the OSI model, routing and switching, subnetting/CIDR, and Linux CLI, reinforced by ongoing CCNA study and hands-on Cisco Packet Tracer lab work. Available full-time from September 2026 via the unsponsored Graduate Route.

CERTIFICATIONS

- **Cisco Certified Network Associate (CCNA 200-301)** — in progress, completion targeted by end of 2026.

TECHNICAL SKILLS

Networking & Protocols: TCP/IP, UDP, OSI Model, VLAN, VPN (Site-to-Site & Remote Access), NAT, Subnetting & CIDR, DNS, DHCP, SMTP, IMAP, HTTP/S, OSPF, RIP, BGP, SD-WAN/MPLS (fundamentals), Wi-Fi

Security & Tools: FortiGate Firewall & Rule Management, SIEM (Splunk), Intrusion Detection, VPN Security, Cisco Packet Tracer (home lab), Wireshark, PuTTY, Linux CLI (LAMP), Active Directory, Azure, MATLAB, Python, C, Git

Infrastructure & Support: Router & Switch Configuration, VLAN Segmentation, OS Installations, Firmware Upgrades, Network Maintenance, Device Monitoring, B2B Client Support, SLA Management

PROFESSIONAL EXPERIENCE

Tech Support Engineer

Jan 2025 – Mar 2025

Glowtouch Technologies (UnifyCX)

Mysuru, India

- Administered Linux/LAMP server environments for enterprise hosting; resolved DNS propagation and email connectivity faults for 50+ B2B client accounts under live production SLAs.
- Used Splunk SIEM for deep-dive log analysis to diagnose email-delivery and routing issues; resolved DNS (A-record, CNAME, MX), SMTP, and IMAP/POP errors to restore mail flow.

Network Engineer Trainee

Jul 2024 – Dec 2024

Vigyanlabs Innovations Pvt Ltd

Mysuru, India

- Configured VLANs and deployed network segmentation across 5+ enterprise client sites in multi-tenant environments, supporting reliable and secure connectivity.
- Managed FortiGate firewall rulesets and IP-blocking policies; configured and maintained site-to-site and remote-access VPN tunnels for distributed client workforces.
- Monitored live traffic and security incidents via Splunk SIEM; diagnosed and resolved Layer 2/3 faults via Linux CLI, meeting resolution SLAs. Performed OS installations, router upgrades, and maintenance across 10+ network devices.

Embedded Engineer Intern

Sep 2023 – Oct 2023

L&T Technology Services Pvt Ltd

Mysuru, India

- Programmed an ATSAM10E16A microcontroller in C; configured ADC for analogue sensor acquisition and interfaced hardware with sensors for data-collection pipelines.

EDUCATION

MSc Electronic Engineering

Sep 2025 – Sep 2026 (Expected)

University of Surrey

Guildford, UK

- Relevant modules: Network Communications (TCP/IP, OSI, ARQ, VLAN, routing & bridging), Satellite & Wireless Communications, Signal Processing. Dissertation: MATLAB simulation of ISAC waveforms over doubly-dispersive fading channels.

BE Electronics & Communication Engineering

Jul 2020 – Jul 2024

Vidyavardhaka College of Engineering

Mysuru, India

- CGPA 7.45/10 (approx. UK 2:1). Core modules: Computer Networks, Digital Electronics, Embedded Systems, Communication Theory, Signal Processing.

KEY PROJECTS & PUBLICATION

- **Network Topology Simulations & Home Lab (Cisco Packet Tracer):** Built multi-site enterprise topologies with interVLAN routing, CIDR subnetting, OSPF/RIP, and ACL-based access control; maintained as ongoing self-directed lab practice.
- **ML Framework for Crop Disease Detection (Python, VGG16 CNN, TensorFlow):** Built and trained a CNN across the full data-to-evaluation pipeline; results published in the International Journal for Multidisciplinary Research (2024).

ADDITIONAL

- AWS Summit London 2026 (cloud networking & infrastructure architecture sessions). National-level hackathon participant. Languages: English (professional), Kannada (native), Hindi (conversational).
